I. Introduction

1. The General Assembly, in its resolution 54/43 of 1 December 1999, inter alia, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B of 12 December 1980.

2. On 24 March 2000, the Secretary-General sent a note verbale to Member States requesting them to submit their reports no later than 30 April 2000. The replies received are reproduced in section II below. Any additional replies received from Member States will be issued as addenda to the present report.

II. Replies received from Governments

Explanatory note

3. The Secretary-General has, to date, received reports from 32 Governments, all of which used the reporting instrument.

4. Figures in the tables presented below have been reported by Governments on the basis of the standard instrument for international reporting of military expenditures. For analytical purposes, the information on military expenditures received has been computerized, with minor adjustments, to conform to standard statistical practices.

5. The originals of the replies from States are available through the Department for Disarmament Affairs at Headquarters.

NOTES

[a] Belgium has supplied data according to its own budget submissions and some of it is regrouped. The data may strictly be comparable at highest level of aggregation only.

[b] Belgium does not provide military aid assistance to third countries. Expenses incurred within the framework of humanitarian operations is accounted for.

[c] Includes salary, wages and indemnity for civilian personnel and employers contribution to pension fund.

[d] This is an additional detail provided by the country and includes both military and civilian personnel.

[e] Includes ammunition and non-nuclear explosives, petroleum products, spare parts for regular maintenance, other material and supplies and other expenses of operation and maintenance.

[f] This also includes a net amount of 939.9 million Belgian Francs for NATO which comprises of host country expenses of 840.0 million and payment to other countries of 18.9 million and Grounds and Service charges of 81.0 million Belgian Francs.

NOTES:

Ecuador

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: 10,683,084 sucres (minimum wage and complementary remunerations).

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: 23,663 man-years.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: No foreign military assistance.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a) Land

(b) Real estate other than land

(c) Equipment

(d) Services

(e) Other

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	*Not available*
Price index of specific relevance to the military sector	X	
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment		X
Such imports divided by:		
(i) Countries		X
(ii) Regions		X

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

NOTES

Finland

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: 8,450 Fmk/month, 66.7 per cent of conscripts would have been employed during their conscription (1/99).

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: 19,500 man-years.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: No military assistance received.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a) Land

(b) Real estate other than land: 47,000,000 Fmk

(c) Equipment: 94,000,000 Fmk

(d) Services: 48,000,000 Fmk

(e) Other

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	*Not available*
Price index of specific relevance to the military sector	X	
Exports of military equipment	X	
Such exports divided by:		
(i) Countries	X	
(ii) Regions	X	
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Regularly published exchange rate of Finland's markka (Fmk) is available.

NOTES

[a] Only relevant headings as per the countries national budget allotment have been stated. Headings left blank are not applicable to national budget allotment

Nepal

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector:

Answer: Conscripts are not used.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned:

Answer: Conscripts are not used.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: 37 million rupees.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition: 443 million rupees.

Sales from the military sector of:

(a) Land

(b) Real estate other than land

(c) Equipment

(d) Services

(e) Other

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year:

	Answer	
	Available	*Not available*
Price index of specific relevance to the military sector		X
Exports of military equipment		X
Such exports divided by:		
(i) Countries		
(ii) Regions		
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions		

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

NOTES

[a] Military pensions in the amount of 1,809.47 million Guilders is included in the figures reported in line 1.1.2 under column 6 (support)
[b] Expenditure related to DICO (Defence Interservices Command for Supporting Services)

Netherlands

Part II

1. In order to approximate the opportunity costs of using conscripts in the military sector, the following information is requested:

(a) The average civilian wage rate that the conscripts would have been likely to obtain during the reporting year if they had not been occupied in the military sector.

Answer: There are no conscripts in the Netherlands armed forces anymore.

If such an estimate is not available, respondents are requested to suggest an average civilian wage rate that may be readily available and that the respondents believe might serve as a reasonable measure of opportunity costs.

(b) The number of man-years devoted by conscripts to military service during the reporting year concerned.

Answer: There are no conscripts in the Netherlands armed forces anymore.

2. With reference to point (d) of the specific guidelines above, respondents are requested to give below the total amount of military assistance received from abroad during the reporting year. The amount should be given in the same denomination and currency as used in the matrix, preferably converted from foreign currencies to national currency at average annual market or par value exchange rate as reported by the International Monetary Fund.

Answer: None.

3. With reference to points (n) and (o) above, the requested information should be reported here in the same value terms as used in the matrix. It is requested that total expenditures, at least, and preferably detailed by type of force group as in columns 1 to 12 of the matrix, be reported for the following items:

Depletion of ammunition:

Sales from the military sector of:

(a) Land

(b) Real estate other than land

(c) Equipment

(d) Services

(e) Other

Total: (a)+(b)+(c)+(d)+(e) = 304,835,000 guilders.

4. Respondents are requested to submit information as to whether statistics of the following kinds would be readily available for the reporting year.

	Answer	
	Available	*Not available*
Price index of specific relevance to the military sector		X
Exports of military equipment		X
Such exports divided by:		
(i) Countries		X
(ii) Regions		X
Imports of military equipment	X	
Such imports divided by:		
(i) Countries	X	
(ii) Regions	X	

5. If a regularly published exchange rate is unavailable, or considered unsuitable for converting military expenditures, respondents are requested to comment on other possible ways for comparing the military expenditures of the responding country with those of other countries.

Answer: The rate of exchange for the euro is: 1 euro = 2.20371 guilders.
